REPLACEMENT OF A LOST PASSPORT

The Embassy of the Republic of Kenya in Berlin, Germany endeavours to serve you efficiently, according to the exigencies of our mandate, as an e-Passport application submission and biometrics capture station.

The ePassport application submission and biometrics capture process is as follows:

1. To ensure that all your documents are complete, arranged them in the order of the checklist on the next page.
2. Once you have handed over your documents you will be shortly interviewed by an immigration officer before you can proceed for biometrics.
3. Once your biometrics have been captured, **all your original documents and the customer receipt with your photo token stuck on it** will be handed back to you.
4. All ePassports are printed in Kenya. Once your ePassport has been printed and sent to the Embassy, eCitizen will notify you of its arrival by sending a sms to the Kenyan number registered on your eCitizen account. Your application status will also change to **PASSPORT READY FOR COLLECTION**. We therefore advise that you check your eCitizen account regularly if the Kenyan number is not operational.
5. You do not have to come back to Berlin to pick up your passport. The Embassy has published information on its website www.kenyaembassyberlin.de informing all applicants on how to get the ePassport once it has been received from Kenya. Kindly visit the Embassy website to familiarise yourself with the procedure as you await your passport.
6. If you do not have any of the documents stated on the checklist on the following page, you will be sent back to complete your application.

Kindly arrange the application documents in the following order 1- 17:

1. Original ID card (**kindly note that a laminated photocopy is not an original ID card**).
