Master scholarships for Master students from Sub-Saharan Africa fleeing the war in Ukraine

PROGRAMME OBJECTIVES

1 The Scholarship programme for Master students from Sub-Saharan Africa fleeing the war in Ukraine is a subprogramme of the In-Country/In-Region Scholarship programme. Scholarship holders are given the opportunity to continue their academic career at a higher education institution in their home country or within their home region¹ (in Sub-Saharan-Africa).

It is funded by the Federal Ministry for Economic Cooperation and Development and managed by the German Academic Exchange Service. Its goal is to provide Master scholarships to students who are nationals of a Sub-Saharan African country and whose Master studies are interrupted because of the war in Ukraine.

APPLICATION REQUIREMENTS

2 Within this Call for Applications, the scholarships are available for those who meet all of the following criteria:

Applicants must be students who

- started their Master studies in Ukraine, hence had a student status at a recognised Ukrainian higher education institution on 24 February 2022 and fled because of the war;
- are nationals or permanent residents of a Sub-Saharan country;
- have successfully completed generally a three-year university degree (e.g. a Bachelor's degree) with above average results (at least: Second Class/Lower Division or equivalent, if applicable);
- clearly show motivation and strong commitment;
- have thorough knowledge of the language of instruction;
- have generally completed their last university degree not more than 6 years ago at the time of application.

¹ Master programmes in Germany are not funded under this programme

ELIGIBLE FIELDS

3

The Scholarship Programme supports full-time higher education Master's studies leading to a degree. Students may

1. continue their Master studies in the original study field started in Ukraine, or
2. if the original study field is not available, then in the Master programme that is the closest match for the original, or
3. continue their studies in another Master's programme of which they fulfil the admission requirements based on previous, recognised studies.

Medical programmes that generally last longer than 2 years are not eligible. Whereas medical related fields such as public health or nursery programmes that provide a distinction between Master's and Bachelor's degrees are eligible to be chosen within this scholarship programme.

PLACE OF TENURE

4

Scholarships are awarded either for Master studies at a preferably public university in Sub-Saharan Africa that offer high quality Master's programmes that have been accredited² or for a Master's programme at one of the DAAD's partner universities within the In-Country/In-Region scholarship programme.

The list of the Master's programmes at one of the DAAD In-Country/In-Region partner universities can be found here: www.daad.de/in-country-in-region.

DURATION AND COMMENCEMENT

5

Funding is provided for the usual duration of a Master's programme – generally, up to two years – starting in September 2022³.

Please note that the maximum duration of the scholarship is based on the time that is left until the scholarship holder has reached the regular period of studies in that programme, i.e., if you apply for a scholarship starting in the second year of studies of a two-year programme, the maximum duration of the scholarship will be one year.

Scholarships are initially granted for one year and can be extended to a maximum of the regular period of study upon receipt of an application for extension. Scholars must demonstrate satisfactory progress before an extension is granted.

² In case no accreditation system is established – the Master's programmes need to meet the national/regional quality standards and requirements set by HE Commissions or National Qualification Frameworks etc.

³ Master's programmes starting before that are also possible, but DAAD funding cannot start until September 2022.
